Grants cut

MLA calls budget fair

The provincial budget proved to be costly for the County of Parkland and the Town of Drayton Valley.

They were both waiting for word on the Community Recreation Cultural (CRCO) grants. Pre-budget predictions indicated the per capita grants would drop from \$20 to \$15. However when the budget was announced, \$16 per capita was the figure.

That means a shortfall of about \$90,000 for the county while the town will receive approximately \$80,000, which is \$20,000 less than last year. The town is in a little better position financially than the county, as they received \$50,000 at their 30th birthday from Pembina Resources to cover any shortfall. The dif-

Shirley Crippa

ference in funds the county will receive, will be passed on to the groups who applied for funding.

MLA Shirley Crippa called it a fair budget. She's extremely pleased to see the gas tax increase won't take effect until June 1, when the farmers will have their crops in.

"People will try and cope if they can," the MLA commented shortly after the budget was announced.

Treasurer Dick Johnston, who delivered the province's harshest budget in 15 years said, "If I hadn't increased taxes Albertans would've been surprised."

Crippa was scheduled to meet with Joe MacLellan, executive director of the Pembina Education Consortium yesterday (Monday) to see how the budget would affect their operation.

Meetings on to locate boundary

Meetings are underway to determine the boundary for the new municipal district.

Ten 'open house' style meetings will be held during the next two weeks.

Today (Tuesday) there will be an open house in the Tomahawk Area Centre. On Wednesday, the scene shifts to the Buck Creek Community Hall followed by the Carwood Community Hall on Thursday and the Lodgepole Fire Hall on Friday. All four sessions run from 1 to 8:30 p.m.

This Saturday, there will be an open house in the County of Parkland building in Drayton Valley between 9 a.m. and 4:30 p.m.

See related maps and stories on page 2

Meetings are scheduled for next week at the Buck Lake Recreation Centre (Monday), Violet Grove Hall (Tuesday), Berrymoor Community Hall (Wednesday) and the Rocky Rapids Hall (Thursday), all from 1 to 8:30 p.m. The meetings wrap up Saturday, April 4 in the Alder Flats Legion Hall from 9 a.m. to 4:30 p.m.

The purpose of these sessions will be to provide information on the incorporation proposals and those individuals in attendance will be requested to complete an opinion questionnaire. These are not public meetings or debating sessions.

Teen pastimes B1

The weather office is calling for a high of plus 2 C today (Tuesday) and mainly sunny.

On Wednesday, it will be mostly cloudy with a high of plus 3 C and a low of -7 C. It will be almost a carbon copy on Thursday with a low of -7 C and a high of plus 2.

On Friday, there's a 40 per cent chance of rain or flurries with a high of plus 1 C and a low of -7 C.

Ministor leaving A6

Mediator

Union talks

Cupe Union 2516 has applied for a mediator to assist in their talks with the Town of Drayton Valley.

A union spokesman told The Western Review on the weekend they have not as yet filled an unfair labor practice charge against their employer because they feel it may be a better negotiation.

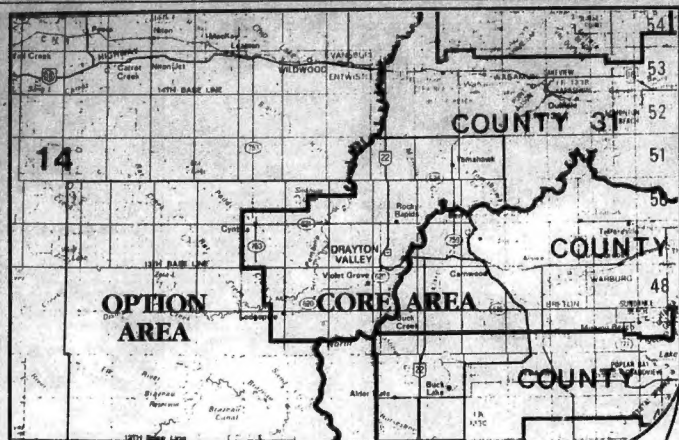

However, a mediator has been applied for through labor relations to assist both parties in achieving a collective agreement.

The union has been without a contract since Dec. 31.

Municipal district slated for '89 Still no decision on new MD boundary

The establishment of a new municipal district is expected to take place in January of '89.

But the biggest issue still to settle is the boundaries.

Municipal affairs hope to get some answers from the series of 'open house' meetings they are holding in the area.

The front cover of the municipal services branch information study and recent newspaper ads placed by municipal affairs includes both a core area and an option area.

The information report

states that an MD based only on the 'core area' would have a level of equalized assessment per capita of about one and one-half times the current average of all MDs, and over twice the average in terms of equalized assessment per local road kilometre. The assessment mix, in terms of proportion of industrial assessment, would be very healthy at around 85 per cent, which compares with a current average for all MDs of about 60 per cent.

It's also stated in the report, that if the 'core area' was supplemented by the 'option area' and the aggregate

formed the new MD, viability would be further enhanced. The aggregate MD would have a level of equalized assessment per capita of about twice the current average for all MDs, and almost three times the average in terms of equalized assessment per local road kilometre. The assessment mix, in terms of the proportion of industrial assessment, would be extremely healthy at around 90 per cent.

The aggregate population of the proposed MD (6,165) would be greater than all the MDs average (5,493), and significantly greater than

the average for all non-metropolitan area MDs (4,088). The 'core area' MD would be slightly below the average in terms of a real extent, while the aggregate area MD would be one-quarter larger than the average.

Municipal affairs' summary report on the area, says an MD on the basis of either a 'core area' or the 'aggregate area' appears to be eminently viable financially and operationally, and holds the prospect of comparatively low municipal tax levels.

Plans call for a final decision by cabinet in May.

Balance needed

Problems expected

The new municipal district won't be without its share of problems.

According to an information report prepared by municipal affairs, the new municipal district is likely to face a major challenge in relation to the taxpayers now located within ID 14 and the MD of Clearwater, but incorporated into the new MD. Unless some means are employed to more equitably balance the revenue furnished and the services received by these taxpayers, there would arise the same 'west-end subsidizing east-end' syndrome that has prompted consideration of the MD.

The 35-page report goes on to explain, "that the extent of the challenge posed would depend on the significance of affected ID or MD industrial taxpayers, who do not also operate in the parts of Parkland, Leduc and Wetaskiwin counties incorporated into the new MD. It is conceivable that the aggregate property tax bill could remain about the same, or might even be lowered, for those oil-patch interests with operations extending across existing municipal boundaries."

The new MD is also likely to face a challenge, mainly in relation to any jurisdiction acquired from ID 14; that its rural residents should not be the only area residents to directly benefit from accessing the low cost industrial tax base.

Copies of the information report, outlining many of the issues facing the new MD, are available at the County of Parkland office in Drayton Valley.

Properties to be assessed

Drayton Valley's first general property assessment in seven years starts this week.

Eight to 10 government people will be calling on residential and business. People are urged to ask these people for proper identification.

Information collected during this assessment will affect next year's taxes.

If you have any questions about the assessment, contact Robin Wenbourne, municipal secretary at the town office.

Free trade, sovereignty

Mel Hurtig to be guest speaker

Canada's future is on the line, according to renowned Canadian nationalist and publisher Mel Hurtig who is slated to visit Drayton Valley next month.

Hurtig will be speaking at a Wednesday, April 22 dinner at the Black Gold Inn. His talk will focus on

Canadian sovereignty, free trade and other related issues.

The event is sponsored by the Pembina Education Society. Only 80 tickets will be sold.

"Our objective is to promote the consortium," said president Jenny Harris. She added that a film

or video tape about the consortium will also be shown at the banquet.

Hurtig formed a national organization in 1985 called The Council of Canadians which was dedicated to preserving Canadian economic, cultural and political sovereignty. He is

also one of the founding members of the Committee for an Independent Canada.

In 1980, Hurtig launched one of the largest projects in the history of Canadian publishing, the \$12 million Canadian Encyclopedia.

Chamber gearing up for fall trade fair

The fourth annual Drayton Valley & District Chamber of Commerce trade fair will be held September 11-13.

This is one week later than usual, due to the Labor Day weekend.

Other than that, just

about everything will be the same.

Chamber president Martin Prentice says they are offering the two-price, booth system again, which allows chamber members a slight reduction.

The entertainment

package will follow the same format as last year, although Prentice admits they will look into providing more seating in front of the stage. Plans to add a 'food fair' have been put on hold.

Prentice doesn't expect the poor economy to have

much of an effect on the number of booths. He admitted the organizers worried last year and they still ended up with 98 booths. Some people have already reserved space for the '87 fair.

Opinions

Busy every night

Loss of our school gyms would hurt

The County of Parkland is going to close all their school gyms at 5:30 p.m. That was the information.

Fortunately, it's just a rumor.

However, John Arnot, assistant superintendent in charge of facilities admits the county has been looking at some cut-backs. One area they are looking at calls for the closing of some schools at night. "That's not just in Drayton Valley but right across the system," Arnot says.

Even the mention of closing any of the public schools in Drayton Valley is a concern.

The schools, if you haven't noticed, are busy every night of the week and most weekends.

In Drayton Valley, the school classrooms and gyms provide much needed space. Without it, many groups wouldn't be able to operate.

This year, groups and organizations lost the services of the Elementary B gym due to renovations and that led to some, such as the boxing club, seeking space in public facilities. Considering the rent money they have to pay, the boxing club is ample proof of the value we often take for granted by being able to use the schools.

Because of the shortage, and the dilemma groups would be in if two gyms were closed, the town might take a hard look at expanding their plans for an arena. Now, there's a bigger need for a community centre.

New cartoonists

Local schools, organizations aid Hansen

Everyone who participated in the Rick Hansen Man In Motion promotion is to be commended for their efforts.

The Royal Canadian Legion contributed \$2,000 with Frank Maddock High raising \$650; a promotion at the pool raised \$607, H.W. Pickup junior high collected \$360 and the Shangri La Lodge added \$160 to the total. If there's anyone we missed, hats off to you as well.

FMHS teacher Rick Watrich took a group of 50 runners out to Gainford last Monday to run with Hansen. Those runners, who got up at 5 a.m., were rewarded by seeing Hansen in person, while many of us watched on the tube.

If you saw the CBC's coverage of Hansen's trip down Highway 16, you may have noticed a lot of local faces.

Congratulations to the Norette banners who have qualified for the April 2-4

provincials at Westlock. People like Dale Warren, Doug Everett and John MacKenzie have given a lot of their time to this club, and we thank them for that.

Bill Lysak and Ken Millman are putting their sketching talents to work as our new cartoonists.

Thanks to the 12 people who showed an interest in the part-time job.

A 'tip of the hat' to Larry Nelson, for the excellent work he did on the public address system during the recent novice hockey tournament.

United Church minister Bob Aldrich is uncertain about his destination.

Rev. Aldrich being transferred

By Steve Fletcher

After 200 baptisms, 135 weddings, 104 funerals, and a host of work for the community, United Church minister Bob Aldrich is leaving Drayton Valley.

His five-year tenure here ends in June.

The minister is still uncertain as to where his superiors will send him, but he says if he had the choice he would prefer Ontario.

"My folks live in Chicago," said the United States native. Aldrich left for Canada in 1977 because of what he believed were the greater opportunities available to him in the ministry in this country, and because of a certain amount of alienation he was feeling towards American society.

"I am of the Vietnam generation," said Aldrich, who will be 36 in May.

He arrived at St. Albert in 1977 to begin his work with the United Church after first earning a master's degree in Divinity at New Jersey's Princeton Seminary.

Aldrich remembered

that his first day there was the day Elvis Presley died. He finds a symbolic connection with this day and the many grim realities in life that a minister must grapple with.

"The suffering of people, the stratification of the community, alcoholism, drugs, and the disintegration of the family—the enormous problems of the area," are all a part of a minister's daily work, Aldrich said.

Conferring with a social services director in Leduc, Aldrich said both arrived at the same conclusion: "We found it appalling the number of sociological and psychological problems in town and agreed that there seems to be higher rates here than other comparable communities."

It's for this reason that Aldrich is concerned about the lack of social services, particularly in the area of mental health, available to residents "We have a troubled area and significantly more so than other areas."

Social problems aside, he

is leaving here with only fond memories of the community and of his congregation, Aldrich said.

"A congregation is like a human being—I would say that this congregation has come of age. My successor will inherit a good congregation ready to do some things."

He added that he found the community to be full of "very faithful, very kind, caring people."

It's been a really good experience, totally positive for myself and my family. The whole community is a hard-working, good crew, although I wish they'd relax more—but then the oil probably wouldn't flow as much," Aldrich said.

Drugs and alcohol

Prevention through education

By Carolyn Vesely
Adolescence, marked by peer pressure and difficult decisions, can be emotionally trying, especially in today's society.

But it's the youth who try to get through with no communication or coping skills who become statistics of adolescent drug and alcohol abuse.

Prevention through education is the focus of a Lions Club project being implemented in local schools.

The program, called Quest, is aimed at teaching 10 to 14-year-olds to develop healthy, drug-free lifestyles. It was jointly developed in the United States in 1985 by officials of Lions Club International and top educators throughout the country.

"Emphasis is placed on building coping skills and dealing with peer pressure," said Judy Perry, president of the Drayton Valley Lionses.

The curriculum is based on topics such as self confidence, emotions, communication, peer pressure, family and peer relationships, decision-making and goal setting.

"The Quest program is worked into the total curriculum," Perry said. "Its principles can apply in social studies or phys ed class."

There are presently 23 schools in Alberta now using Quest.

It has been taught to Grade 8 students at St. Anthony's school in Drayton Valley for the past year and according to Perry, is presently under consideration at H.W. Pickup junior high.

Ron Williams, principal at St. Anthony's, said the program received limited but positive response from parents.

He pointed out that Quest will supplement, not replace new health curriculum being implemented in junior high schools in the fall.

"The students were very open (during the course) and are taking a closer look at various situations," he said, stressing the importance of reaching junior high-age students because "that's when their thought patterns and habits are formed."

The curriculum is implemented at a school by two or three of its teachers who attend a three-day seminar in Wetaskiwin. It costs \$1,400 to send three people. The amount includes a teacher's manual as well as a home guide for parents.

One or two parents usually attend to relay the

information to other parents, said Perry.

Individual Lions clubs help get Quest into schools by sponsoring any that send teachers to the seminar.

Gail Klassen, a teacher at Queen Elizabeth junior high in Wetaskiwin recently completed the seminar with about 35 other teachers.

After completing it she said she felt Quest should be introduced earlier, in Grade 5.

"It (curriculum) mainly deals with decision-making," she said. "I think it's a really positive thing."

Home Hardware holds grand opening

Amy Blais, Mayor Bob Mayhew and Alex Blais cut the chain.

Home Hardware officially opened their expanded store in Drayton Valley last Tuesday.

Mayor Bob Mayhew flanked by store owner/manager Alex Blais and his wife Amy, cut the ribbon (actually it was a chain) to officially open the 10,000-square-foot store on Drayton Valley's main street.

Home Hardware added 3,000 square feet of space when they purchased the old medical centre.

Mayor Mayhew praised the Blais for the faith they have shown in the community and wished them the best of luck.

Bernard Stowe, Home Hardware's district manager called the Drayton Valley store one of their strongest. He also singled out Alex Blais as one of their exceptional managers.

Stowe said Home Hardware has been growing by leaps and bounds. In the last three to four years, their stores have been increasing by an average of 50 per cent.

The additional space has allowed Home Hardware to add another 1,000 lines. Many of their lines have been expanded and a display of appliances has been added.

Mayor Mayhew was presented with a commemorative knife to mark the official opening.

Changing tourist branch?

The Drayton Valley Chamber of Commerce is currently investigating the possibility of switching tourist associations.

Rod Schultz, tourism committee chairman, says a change in the chamber's membership from the Evergreen Tourist Association to the Battle River Tourist Association will offer a tremendous boost to his organization.

"We just basically want to tie into the association that will provide the most benefit, with the least amount of cost."

Recently, the Evergreen association moved to increase its membership costs from 25-cents per capita to \$1.

"The Battle River Tourist Association serves towns and communities along Highway 22. We're 20 miles off of Highway 16 the emphasis for the Evergreen Tourist Association (Zone 7) is Highway 10," Schultz explained.

Sylvia Clements, manager of the Battle River association, has no qualms about Drayton Valley joining, but said she would also like to be certain that any decision is "in the best interests of everyone involved."

An official with Evergreen wants first to set up a meeting with Drayton Valley and discuss the situation, Clements added.

The Battle River board of directors reviewed the Drayton Valley request at a meeting last Thursday and will be contacting the chamber to go over the matter.

The Battle River association's memberships fees are 13 1/2-cents per capita but may increase to 15 cents in 1988, Clements said.

RECENTLY REDECORATED!! 8 year old, 3 bedroom home. New hush puppy underlay, new 81 china cabinet & interior design. Newly listed & a must to see! The wait's finally over

— Photo by Frank Ryan

It was a long wait, but local skiers are loving every minute of finally getting to use the local facilities. Because of poor snow

conditions the past two winters, the club is looking seriously at acquiring snow making equipment.

Provincials

Norette qualifies

After a 10-year absence, the Norette bantams have qualified for the provincials.

Norette defeated the Edson Nordiques 16-10 in their two-game total goal series to earn a berth in the eight-team bantam provincials April 2-4 at Westlock. It's been 10 years since Norette appeared in an Alberta final.

After storming back from a 5-0 deficit to earn a 6-6 tie in the opening game of the series, Norette whipped the Nordiques 10-4 last Monday night.

Bryan Everett gave Norette a 1-0 lead at 13:27 of the opening period only to have Jody Munro tie it three minutes later. Allan MacKenzie gave the home town side a 2-1 lead with his goal at 19:01. Everett, with his second of the game, made it 3-1 at 2:33 of the middle stanza and Jason Kipling added what coach Dale Warren called the turning point in the game, when he scored on a power play at 12:22. Edson was penalized when they fired the puck over the boards as Norette stormed their net.

Miles Parker gave Norette a 5-1 lead before the second period ended. Darren Parenteau with two, Trevor Fedorus, Colin Tuckwood and Daylen Plannmueller round out the scoring in the third. Mike Harding replied with a pair for Edson and Blaine Melnyk added one.

Fifteen penalties were called in the contest with Norette taking 11.

Derek Hruska was outstanding between the pipes for Norette, especially in the first period when the score was tied.

Warren praised his club for their total team effort. "We came out flat in the first period at Edson, but tonight the kids were ready to play. Everyone was up," he said following the 10-4 win.

The Norette coach looked back to his club's fourth goal on the power play, which seemed to take the steam out of the Nordiques.

The trip to the provincials will be the third for Warren; one as a player, with Alix, and now his second as a coach.

With a berth in the provincials all wrapped up, Norette is busy with league playoffs.

Fourth game tonight

Devils hold 2-1 lead in final

The Drayton Valley Devils are back in a familiar position.

After trailing Barhead in most of their north division final, the Devils hold a 2-1 lead in their Heritage Junior B final against the Rimbey Weststars.

The fourth game will be played tonight (Tuesday) in Rimbey starting at 7:30 p.m. The Devils took advantage of home ice and recorded two victories, 6-5 Saturday after chalking up an 8-6 win in the opener on Friday. The Weststars also took advantage of home ice, and won 4-1 Sunday night.

Three second-period goals was the difference in the Devils' 6-5 win. They trailed 3-1 after the first but their second-period outburst along with another goal early in the third had them leading 5-3. Grant McGinn tied the way with a pair. Trevor Ceh, Mike

Defenceman Sheldon Dunham

Benoit, Jeff Thiel and Sheldon Dunham had singles.

Chad Allen had three goals in the series' opener with Brad Pankiewicz, Trent Pankiewicz, Bill Adler, Kevin Hutchinson and Ceh adding singles in the 8-6 win. The teams were tied 3-3 after the opening period before the Devils outscored the Weststars 3-1 in the middle stanza to go ahead for good.

By eliminating Barhead, the regular season champion Devils qualified for a provincial tournament. The playoff winner advances to the junior B provincial final April 3-5 at

Wainwright while the runner-up gains a berth in the provincial BB tournament April 10-12 at Edmonton. For the Weststars, it will be their

fourth trip in five years to the Alberta final.

Minor hockey round-up

Parkland squares series with Leduc squad

Adrian Agains and Darcy Saar scored two goals each as Parkland defeated Leduc 5-2 Sunday to even their Wild Rose B final at one game each.

Leduc, who won the opener 2-1, hosts Parkland tomorrow (Wednesday) night in the third game of the best-of-five series.

Leonard Adler turned in a solid effort between the pipes for Parkland in their 5-2 win, making the big saves when they were needed.

In action Sunday, Darren Gray and Desi Parenteau scored three goals each as Hi-West downed Elks 12-2. Lyle

Gregory and Todd McLure had two-goal efforts and McLure also added four assists. In another match-up, Trevor DePaige and Matthew Labossiere had two goals each as Braidnor defeated Mohawk 10-1.

On Saturday, Warden Warriors and Nelsons played to a 3-3 tie. Jason Mizibrocky

had two goals for the Warriors with Loren Plotts getting one.

And in a game last week, James Jelinski scored three times as Flint downed Hi-West 10-4. Mike Phillips and Brad Bravil had two goals each for Flint.

Scoreboard

Deadline nears

The only have until Thursday to submit applications for the 1987 Alberta championship. All but seven teams have submitted and have received. Eighty-eight people have entered the event.

Ball tourney

Alan Zimmerman is busy with plans for a 40-team tournament May 18-19, which is the Victoria Cup. The event, which will be played in the Victoria Cup arena, is expected to be a success.

Juniors wanted

Drayton Valley has paid their entry fee to play in the 1987 Alberta Junior Hockey League. Alan Zimmerman is taking up junior hockey for the local squad.

DV after games

The Drayton Valley Baseball Association and Hinton are the running to host a 18-team bantam A tournament June 19-21 as part of the Summer Games. The association will also host the Beaver 'B' provincials July 25-26.

Ball meeting

Tentatively, a ball users meeting has been called for April 9. However, recreation director Calvin Bennefield says the meeting date might be moved up because he's leaving that week.

Oilmen's hockey

Playoffs are underway in the Pembina Oilmen's Hockey League. Tomorrow (Wednesday) Chevron will meet the Truckers in an 11 p.m. game. On Thursday, Andex and Mobil square off at 11:15 p.m., followed by Grandette and Texaco March 25 at 8 p.m., Icehawks and Dome March 26 at 8 p.m., and on March 27 it's Chevron and the Truckers in an 8 p.m. game.

Players wanted

Individuals and teams interested in playing elo-pitch this summer are asked to call Alan Zimmerman at 542-5020. The league will have at least 22 teams, and if there's enough interest, it will be expanded to 32.

Hockey preview

Two teams who will participate in the bantam hockey provincials next month, Morette and Westlock, will play a house-and-home exhibition series. Morette will host Westlock at the arena March 20.

Rodeo dates

Northside Superdoe starts tomorrow (Wednesday) in Hinton. Performances are scheduled for Wednesday, Thursday, Friday and Saturday at 7:30 p.m. and Saturday, Sunday at 2 o'clock. Tickets are available at all Race outlets. Call 423-0775.

Morette loses

The Morette bantams bowed out of their league playoffs last week when they dropped a 4-1 decision to Rocky Mountain House. The teams played to a 1-1 tie in the opening game. Morette's two-game total goal series 3-7.

Phone for coverage

If your group, organization or team has a meeting or game planned, call our sports department at 542-5390 for coverage. We want to hear from you. Don't take a chance that we won't be there for you.

Devils eliminate Barrhead team

The Barrhead Elks gave the Drayton Valley Devils quite a scare.

But in the end, it was the regular season champion Devils who moved into the Heritage Junior B Hockey League final against the Rimbey Weststars.

The Devils, who only lost two league games in 32 starts, needed back-to-back 7-4 wins last week to sideline a stubborn Barrhead squad 4-3 in their best-of-seven

north division final.

Robin Cockwill's unsisted effort at 19:11 of the middle stanza and three third-period markers were the difference in last Wednesday's home ice win before 350 fans. The teams were tied 3-3 when Cockwill went the length of the ice to give him the lead heading to the dressing room.

The night before at Barrhead, the Devils scored three goals in two minutes and 29 seconds to erase a 4-2 Barrhead lead, and go on to victory.

Cockwill had two big goals in the seventh and

deciding game in the series with Blair Shimbashi, Grant McGinn, Trent Pankiewicz, Mike Benoit and Trevor Ceh adding singles. Captain Kevin Hutchinson and Trevor Pedorus turned in strong efforts along the blueline.

In their 7-4 win in game six, the Devils got two-goal efforts from Benoit and Pankiewicz and Chad Allen with singles coming off the sticks of Hutchinson, Shimbashi and McGinn. Hutchinson got the winner, Shimbashi scored an insurance marker at 15:19 and Pankiewicz scored a short-handed tally with 24 seconds left.

Rodeo ready

Not much remains to be done in terms of organization and scheduling, as the Lions Club prepares for their annual Evergreen rodeo June 12-14.

The midway, cowboys, stock contractor, band, and the chuckwagon and chariot supplier have already been confirmed for the 18th annual rodeo, says John Fiddler, chairman of the rodeo committee.

Fiddler reports that the Saturday night band will be Edmonton's Clearwater. The stock contractor will be Block Brothers, the Lakeland Cowboy Association will supply the cowboys, and Crown Amusements will operate the midway.

The only event that really requires more organization is the parade. This year's theme will be Drayton Valley's 30th anniversary.

Work will be done to upgrade the rodeo grounds and the fence, and Fiddler hopes the town may provide some financial assistance in this regard.

TRETOLITE Chemicals and Services

Tom Cain

Ron MacLeod

Petrolite Canada Inc., Tretolite Chemicals and Services are pleased to announce the appointment of Ron MacLeod. Ron brings with him laboratory experience with testing and formulation of oilfield chemicals and will provide our local sales representative, Tom Cain, with full time technical service support. This move is all part of Petrolite Canada Inc.'s continuing effort to meet the chemical & service needs of our Western Canadian oil and gas producing customers.

Commercial league is into playoffs

Three players finished with over 100 points in the Drayton Valley Men's Commercial Hockey League regular season schedule.

Greg Towman of the second-place Parkway Saints finished the 30-game schedule with 107 points that included 82 goals and 55 assists. Teammate Darrel Neigum was just one point back with a league-leading 57 goals and 49 assists. Third place belonged to Bob Chaisson of the first-place Green Arrows, who had 56 goals and 51 assists for 105 points.

Two players, Tony Knight and Bernie Street, of the Arrows, tied for fourth spot with 81 points each. Knight finished with 42 goals and 39 assists while Street had 27 goals and 54 assists.

Brent Harrison of the Arrows was fifth with 88 goals and 35 assists for 88

points followed by Frank Stables of the White Wildcats with 38 goals and 28 assists for 61 points.

The Grass Arrows finished first in the six-team league with a 26-3-1 win/loss/tie record for 63 points. Eight points back in second place were the Parkway Saints who finished with a record of 22-7-1. The Blue Sabres ended up in third place with a 16-12-5 record which was 10 points ahead of the White Wildcats who were 12-18-0. The Orange Flyers finished with a 9-21-0 record followed by the Last Chance Lancers at 7-21-2.

The teams are now into their playoffs. Games are scheduled for tonight (Tuesday), 10:45 p.m. at the arena and tomorrow (Wednesday) at 9 p.m. in Warburg.

Corrections...

It was Richard Townsend, not Walter, who was fined \$100 in court for an assault, rising from a domestic dispute. The Western Review apologizes for the mistake, printed in the March 3rd issue.

The All Saints Anglican Church bazaar sale is on April 3 at the Derrick Mall, not on April 4 as indicated in last week's paper.

REAL ESTATE
AND YOU
Rod Schultz
Sales Manager
Canada Trust
Phillips Realty
Inc.

Why buying depends on appreciation

In my last column I talked about the classic real estate question: does one buy or rent? I concluded that owning is a forced saving and real gains only come about when a property appreciates. Through the seventies, houses appreciated much faster than the rate of inflation. But price declines in 1982 put the whole issue of property appreciation in doubt. While prices moved up significantly in 1986 over 10% in many markets - don't get misled. There will be other years when prices are flat and the averages will come back into play.

Should you buy a house just as an investment? Even with tax-free capital gains on the sale, my opinion is "no", if that is the only reason. That's because you will probably need to hold it for several years before the rents will cover the carrying costs.

Now, before the real estate community decides to shoot me, let me explain. Owning a house is a lot of work, but it brings a lot of pleasure. People take pride in owning something and fixing it up. The non-economic factors are then probably more important than the economic. And if one can gain all these pleasures through owning an asset that does not lose its value, then owning a house is the right

Remember my discussions and everyone else's centered on how much houses would appreciate in value. By paying off your mortgage, a homeowner will end up with a sizeable asset, even if it never appreciates.

Ladies football

Teams sign up

Seven teams have indicated an interest in playing in the Drayton Valley Ladies Football League this summer.

Representatives from Tomahawk, Lindsale, Moon Lake, Whitty, 79's, Legionettes and the Easyford Jokers attended a re-organizational meeting last week.

Lisa Cooper has been elected president of the league with Kelly Gibson handling the dual position of

secretary-treasurer. Roxanne Guyon will look after publicity.

Depending on the weather, the league hopes to start playing the first week in May.

Teams wanting to join the league are asked to call Lisa Cooper at 696-3815, Gibson at 542-7151 or Guyon at 542-2807. Another meeting will be held around the end of April.

OUTSTANDING FARM SALE

for the
ESTATE OF VICTOR HALWA
and
MARK HALWA

Community happenings

By Stacey Orleky

Elks

On the last Sunday of each month the Elks hold a pancake breakfast open to the public.

Senior Citizens of D.V.

On March 27 the senior citizens will be going to Evansburg to participate in inter-club activities, such as card games and floor curling. The seniors will be going

to Spruce Grove April 28 & 29 for a workshop.

Air Cadets

On March 28 the cadets will be going to the Canadian Air Force Base in Edmonton for a tour. After the tour the squadron will be going for a Hercules flight.

A Decoda plane, flying from Winnipeg, will be stopping at the Drayton airport to give the air cadets a ride on April 5.

Summer jobs for teens

Skills workshops held

Christine Cripps, County of Parkland teen leadership coordinator, is urging employers to contact her about the possible summer placement of teenagers who are participating in skills workshops.

The workshops, six in all, are designed to teach the skills required to become recreation counsellors or the

equivalent. The first one was held March 11, the last one will be completed April 26.

Cripps said 14 of her 83 students (26 are students at Frank Maddock high school) have already shown a keen interest in obtaining a summer job in recreation or in related fields.

All are between the ages of 15 and 18.

Anything from work at a junior warden camp to the STEP program is suitable, she said. "I'm not going to get the actual jobs for them, but I'd like to get the information and let them know what is available."

For more information, potential employers can contact Christine Cripps at 542-4632.

WHO'S NEW

March 13 — OLLSON, John & Shirley, Alder Flats, girl, 2040 grams, 4 lbs. 8 oz.

Hansen supporter

Tony Bryant, right, from the Lindsay school, presented Rick Hansen with \$512.55 raised from a recent wake-a-thon fund raiser. That's Whitcourt M.A. Peter Trynchy in the background.

School news

By Bill Lysak
Timnashuk

The school held several activities for Rick Hansen recently before he passed through the area. Wheelchairs were in the school for students to experience what it is like to be like Rick Hansen.

They also held several fund raisers such as hot lunches and dances, and they raised \$531.20 from the community and fundraisers.

Several of the students were at the Wabamun overpass to present Hansen with the cheque and ran with him.

On March 17 and 18, six students went to the county Science Fair, held in Stony Plain.

St. Anthony's

The MS Read-a-thon has been completed successfully, raising \$1,575 through reading 1,242 books. Jill Kolenski raised the most money and Christopher Hartley was second, although he read 181 books, the most read in the school.

Frank Maddock high school

Three curling teams will be going to a tournament in Leduc April 4 and 5. This is a mixed bonspiel and junior high school students are able to participate. At the present time, three junior high students are members of the FMHS curling club.

Parents are reminded that parent-teacher interviews will take place this Friday, March 27.

Application forms are available from the school office for the R.H. Woods Memorial Scholarship. This scholarship recognizes students who have excelled in academics, school leadership and community service. Applications should include a letter of reference from the community groups served by the student and the scholarship amounts to \$1,000.

Folks who think they must always speak the truth overlook another good choice — silence.

C.L. Null

The Drama 20 play, "The Ugly Duckling", was extremely successful and received favorable response from the community. Rehearsals are now in progress for "Cheaper by the Dozen" to be presented May 8 and 9 by the drama club.

Elementary B

The graduation from the Values, Influences and Peers program (VIP) will be held March 25 in the FMHS theatre. Two Grade 6 classes will be participating.

This week the school should be moved into the new wing (hopefully). The big move took place yesterday.

Breton elementary

Report cards will be coming out today (Tuesday) and parent-teacher interviews take place on the 26th and 27th.

Eldorado school

Just a reminder spring break takes starts March 27 and school resumes April 6.

Young gymnasts do very well

Compliments were given to the five and six-year-old gymnasts from Drayton Valley on their showing at a recent meet in Warburg.

The kids were the youngest group in the competition. They worked on the vault, floor, bar, and the beam.

Although the kids didn't win any of the medals, they did win some prizes. Rosie MacKinnon won a prize for the best headstand. Nicky Reich won a prize for the best strength move on the bar. Jullaine Devall won for the best flexibility on the beam

and Julie Saunders won for the happiest gymnast.

The gymnasts that went to the meet were Jackelyn Muth, Jullaine Devall, Nicky Reich, Julie Saunders, Jackie Boyd, Rosie MacKinnon, Sacha Sparague, and Stacie Sawec.

Johnson Realty & Insurance Ltd.
 Bus. 542-5355 Res. 542-5794
 Valerie Hendrix 542-4555
 Box 894, Drayton Valley, Alta.

already completed and a possible site all but chosen.

Red Schultz of the Drayton Valley Chamber of Commerce says \$10,000 has been set aside for construction costs for the 400-square-foot facility. At least one company, Pelican Spruce Mills, has offered to supply materials, labor and most of the required trades people free of charge.

The architectural drawings were donated by

Samalta Engineering of Edmonton. "Jim Samberski (of Samalta) has (had) so much work from Drayton Valley that I asked him about doing something for the town. He said 'no problem,'" Schultz explained.

Sites near Pelican and the Shellfish plant are under consideration for the location of the new booth.

"We're asking some company or some individual to give us a site that is fully ser-

viced with good exposure," Schultz said.

He added that companies situated next to the tourist booth usually receive good exposure in return.

A total of 2,800 visitors stopped at the old booth by the Esso service station last year.

Schultz said the old booth is too old and too small, and must be replaced. The idea for the new building has

been in the works for the past year.

The chamber will examine all potential sites and come to a decision soon.

"There's no doubt about it," Schultz said, "we'll do it, we just don't know when. Mind you, I'm an optimist - I'm in real estate."

The 1987 Budget

MAKING THE RIGHT DECISIONS FOR ALBERTA

As Government MLA's, we asked the Provincial Treasurer to bring in a sound and realistic budget in 1987. Every Government, every year, has been increasing its expenditures, whether it has the money or not.

You couldn't do that at home. And we shouldn't either. Somebody has to speak for the taxpayer.

This Government does. We want to be able to look back and say "we made the right decisions for Alberta in 1987, during a difficult financial time in Alberta's history."

The 1987 budget, introduced on March 20 by Provincial Treasurer, Dick Johnston, is supported by all Government MLA's.

This budget tackles the fiscal realities of the 1980's, yet it helps those Albertans who do need help, and it lays the groundwork for the strong Alberta we all want in the years to come.

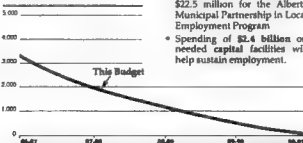

Don Getty
Don Getty, Premier
On behalf of all
Government MLA's

- **Concern and Help** for those Albertans who are facing unusual difficulties right now, as well as those in our society who have traditionally needed help.
- **Facing Reality** — We cannot pretend, as some would like, that oil and gas revenues are pouring in. Alberta is affected by world events.
- **Deficit Reduction** — This budget has a four year plan to bring Alberta back to balanced budgets.
- **Ensuring Quality Services** — We will continue to provide Albertans with quality education, health care, and other essential services at the highest possible level.
- **Keeping Taxes the Lowest in Canada** — Maintaining services means that some tax adjustments are essential. Albertans do not want continuing and massive deficits, but nor do we want to sacrifice those services that really matter, like schools and medical care. In order to balance these needs, we must accept some changes in our taxes yet we will still pay less than other Canadians.
- **Jobs** — Albertans want to work and we are determined to take every practical step we can to encourage the creation of long term jobs for people in this province.
- **Building for Tomorrow** — Every one of us in the Government caucus believes that Alberta will be strong in the coming years. We believe that this budget is designed to give the right kind of encouragement for a stronger economy.

How the Budget Plan will Control Expenditures

- With fairness and caring for those in need, the plan is to balance the annual budget by 1990-91 using a three-pronged attack.
- First, the 15% transfer of resource revenue to the Heritage Fund will be suspended. The fund's investment income continues to be used to support people programs.
- Second, expenditure will be downsized over time. In 1987-88 expenditure will be reduced by 4.4%, a saving of over \$1 billion. A 6% reduction in the civil service will streamline government.
- Third, expenditure reductions will be balanced, in 1987-88, by tax and fee increases.
- As a result, the combined deficit will be reduced in 1987-88 by more than 60% to \$1.9 billion.

THE FISCAL PLAN

Employment Opportunities

- The government is deeply concerned about the unemployment situation; we understand the sense of frustration and hardship that unemployment brings.
- A new \$144 million Labour Market Strategy will help the private sector maintain and create jobs, largely through wage subsidy programs. Employers will be encouraged to hire those who have been unemployed for an extended time.
- Youth employment will be a priority. The Youth Employment and Training Program and the Summer Temporary Employment Program will receive \$40 million.
- Private sector employment will be reinforced through massive support for the vital energy and agriculture industries.
- Local governments will receive \$22.5 million for the Alberta Municipal Partnership in Local Employment Program.
- Spending of \$2.4 billion on needed capital facilities will help sustain employment.

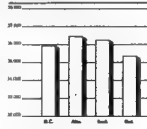

Ensuring High Service Levels

- Spending on education is budgeted at \$2.4 billion and, on a per person basis, remains the highest in Canada. Selective spending increases are planned to help school districts with low tax capacity. Student financial assistance will remain the best in Canada.
- Health spending is budgeted at \$2.6 billion to cover the operating costs of hospitals and nursing homes, and doctors' services. In addition, \$235 million will be spent for hospital and nursing home construction. Alberta's spending on health is second to none.
- Alberta's seniors will continue to receive unparalleled health, shelter and income support. Programs specifically for seniors will not be reduced. Funding for medical benefits and lodges will be increased.
- Those Albertans in need will be protected. Social allowance benefit rates will increase for single parents. Funding for key programs for the handicapped will be increased.

Taxes the Lowest in Canada

- Albertans are being asked to pay more through taxes to maintain quality services. Increases will be shared between businesses and individuals.
- Low income groups will be protected. Nearly one-half million Albertans will be shielded from the income tax increases.
- The small business tax rate will not be increased.
- Alberta's taxes will remain the lowest in Canada. Albertans will take home more of their paycheque after provincial taxes than other Canadians.

Comparison of Total Taxes Paid (per family of four with 2 kids, income of \$40,000)

- Alberta will continue to have no sales tax.

Building the Alberta Economy

- Nearly one-half billion dollars is targeted to agriculture.
- Alberta's farmers will continue to receive a 16 cent advantage on a litre of fuel, including an exemption from the fuel tax. The saving to farmers is estimated at about \$140 million. Ongoing benefits will flow from the \$2 billion Alberta Farm Credit Stability Program. The Farm Fertilizer Price Protection Plan has been extended for 1987 at a cost of \$22 million.
- Farmers will receive over \$47 million under the Crow Benefit Offset Program and \$15 million is provided for the red meat stabilization program.
- The energy industry will receive ongoing benefits through the \$1 billion royalty reduction and incentive program announced in October. A \$60 million loan will be provided to Syncrude for expansion work.
- Selective funding will be provided to assist the government's diversification efforts in forestry, high technology and tourism.
- Small business is a key to diversification and employment. Benefits will continue to flow from the government's \$1 billion Small Business Term Assistance Plan and preferential tax rates.

COUNTY OF PARKLAND NO. 31

MUNICIPAL INVOLVEMENT WEEK April 6 - 10, 1987

The County of Parkland No. 31 wishes to invite its ratepayers to join their officials and municipal staff at open houses between 7 - 10:00 pm during Municipal Involvement Week at the following locations:

- April 6 - Rocky Rapids Community Hall
- April 7 - Sebo Beach School
- April 8 - Blueberry Community Centre
- April 9 - Garden Valley Community Hall

We look forward to providing the opportunity for informal discussion of the matters of concern to our ratepayers and the sharing of information which may better enhance your understanding of municipal government administration.

Call for Nominations

The Alberta Human Rights Award Program is designed to recognize Albertans who make outstanding contributions to the understanding and acceptance of human rights in our province.

Such Albertans are devoted to promoting the welfare of humanity by enhancing our human rights. They possess exemplary qualities: courage, compassion, dedication and leadership. If you know of such an individual, consider nominating that person for the award.

The first award will be presented December 10, International Human Rights Day. Nominations close June 30. For more information, or a nomination form, phone or write:

Clayton Rosenberger

Services are held

Drayton Valley RCMP are investigating the death last Friday afternoon of Clayton Rosenberger, 65, who was found deceased at a Mobil Oil satellite site nine kilometres southeast of Drayton Valley.

Poul play is not

suspected, said a Breton RCMP spokesman.

Rosenberger was a resident of Drayton Valley.

Funeral services were held Monday afternoon at the Royal Canadian Legion in Drayton Valley.

The Path to Life

Is Marked Out For Us in the Bible.
Satan Has Tried to Confuse the Path.
The Messiah is the Way, the Truth and the Life.
He Has Said "If you will enter into Life,
Keep The Commandments" Matt. 19:17.
Beware of Satan's counterfeits.
"Search the Scriptures", Study to show yourselves approved"
II Tim 2:15.

Students interviewed

Hockey, swimming popular with teens

By Stacey Orlesky
and Bill Lysak

Most teenagers in Drayton Valley have found ways to keep themselves occupied.

The main attraction is the Devils' hockey games, as 17 of the 42 students interviewed indicated.

Swimming is also a big activity among the teenagers. Most of them frequent the pool, using the facilities to occupy their time.

Jeff Thiel, a Frank Mad-dock high school student, says he has no real hobbies. He stays at home listening to music or he goes out with friends and to parties.

Taru Kauppinen window shops during her free time. Hockey games and movies are the only things to do in Drayton Valley, according to Taru. Bowling and curling are only for people who know how to do it, she admits.

Videos, triking, visiting friends and sitting at home and watching television are the only things that Bonnie Melnyk seems to find to do in Drayton.

Dave Wiseman, Shannon Harden, and Derek Hruska all shared the same ideas on what to do — go out with friends, party, go to the Devils' games, and watch videos.

Lisa Tink, James Manning, Audrey Mirlach, and Audra Mickle all had the same interests — sports such as volleyball, badminton and basketball, plus piano, visiting friends, sleeping, reading, and watching television.

"Cruising" around the town was very popular with some of the students, such as Marc Kwasnycia, Daniel Hartley, and Mark Hansen.

Teenagers from St. Anthony's had many of the same views on what there is to do in Drayton Valley.

Popular activities consisted of track and field, biking, quading, triking, swimming, going to the movies, Devils' games, playing hockey, or just going to a friend's house. These activities were all shared by Craig Plakoski, Dallas Wolbaum, Anne Marchi, Janala Hutzal, Cheryl Lindberg, Angela Grouls, Angie Blake, Stu Litke, Steve Chrysk, Diana Hogekinsin, Claudette Saulanger, Marianne Lord, Kelly Clark, Roland Guesk, Len Johnson, Jason Johannesson, and Terry Teganawetter.

Sports are also very popular at H.W. Pickup. Hockey, track, swimming, baseball, figure skating, biking, jogging, football, and badminton were the most popular with Kevin Hagen, Patti Pankewicz, Erica Mueller, Jeff Harris, Russell Guyon, Kyra Pretzer, Dana Pyrch, Micheal Kenay, and Marlena Dahlgren.

The teens at the Frank Maddock high school, such as Melanie Wieting, Karen Woodruff and Laina Wentland all felt there's not much to do in Drayton Valley. Movies, sports, and parties were the only thing they felt they find there is for them to do.

Gillian MacLellan, FMHS student union president, really participates in school activities such as the school newspaper, yearbook, and grad committee. Plus she's involved in sports to occupy her spare time and holds down a part-time job.

Michelle Reganwetter, Kacey Francisson, and Jodi Trenchuk occupy their time by cheering on the Devils and swimming, going to parties and going to the show.

A trip into Edmonton was also a favorite past time. Next week, we'll find out what teens would like to see, to do, in town.

Work experience

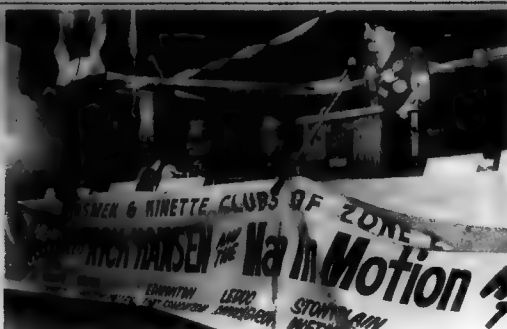

First of three

This is the first of a three-part feature on teenage activities in Drayton Valley.

Stacey Orlesky and Bill Lysak, two Frank Maddock high school students working at The Western Review as part of a work

experience program, are conducting the interviews.

This week they identify what teens find to do in town. Next week, they will reveal what our teenagers would like to see as possible activities. The final week, will identify what is available for teens.

Kinsmen, Kinettes host visitors

Kinsmen and Kinettes from 10 clubs met in Drayton Valley recently for their day-long zone meeting. Drayton Valley Kinsmen Jason Colby, left, makes a collection from a head table member, while Laurie Tkachuk, above at the extreme left, sits in on a head table discussion. The local clubs will be sending a delegation to the district meetings in Lethbridge.

Pensioners must re-apply for income supplement

Alberta pensioners must complete their guaranteed income supplement renewal applications by March 31 or they will face reduced payments in April.

Jacque Lemare, regional director of the Income Security Programs Branch stated that approximately 35,000 of the guaranteed income supplement pensioners in Alberta have not yet completed their annual renewal applications, which they must fill out to continue receiving the supplement.

"Applications received after March 31 but prior to the third week of April will be processed by special cheque," Lemare added, "but it is important that pensioners get them in as soon as possible. Applications received after the third week of April will be processed and appropriate adjustments will be made to pensioners' May cheques."

More than 100,000 Alberta pensioners received the guaranteed income supplement in addition to their monthly Old Age Security pension.

application because of possible changes in income of the recipient. Those whose income dropped in 1986 will receive larger monthly payments, while pensioners whose income increased during the year will receive a reduced rate.

Town videos for rent

By Lois Peterson
The Town of Drayton Valley has placed two video tapes in the library.

Drayton Valley: A Town on the Move and *Town of Drayton Valley: 50th Birthday Party* are now ready for library patrons to borrow under the regular conditions set up when borrowing any library materials. The borrower must be a library member in good standing and as such, agree to return the tape on time and assume the cost of replacement if the tape is damaged or lost while in his or her possession.

Looking for a job? Then come to your library and look through *Jobs, Jobs, Jobs: The Magazine of 1000 Careers*. This is a brand new

publication from Vancouver which compiles a massive list of job openings across Canada. The information is taken each week from newspapers throughout all provinces and listed in 38 major categories to help in your job search. The listings are current and concise.

Jobs, Jobs, Jobs is coming to your library on a trial basis. It is for use only in the library and available at the checkout desk. Have a look and give us your comments.

Writers and illustrators are required by two major publishers. Kids Can Press require picture book manuscripts, non-fiction suitable for 8-12 year age group and novels (mystery, detective, adventure and

Kathryn's

"Great gift idea for grandma"

By Carolea Vesely
What kind of gift can you give someone who has everything?

How about something that literally collects dust? Like a visit from Kathryn's Domestic Services.

Since officially opening the business January 1, manager Kathy Patterson and her four housekeepers have been busy cleaning the homes of a growing list of customers.

To date, they have between 10 and 15 regular clients, in addition to the occasional single season and one commercial job.

Patterson, an RNA by profession, said the motivation to start a house cleaning business stemmed from her own search for a housekeeper last year when she had to recuperate at home after her baby was born.

"I couldn't find one," she said, "so my husband had to

miss work which was a lot more costly. I guess it's like that cliché, necessity is the mother of invention."

Newborns and two-job marriages are only two of several reasons why housekeeping duties often get put on the back burner.

Patterson said the elderly, people recuperating from an illness or injury or planning for a special occasion may also require housekeeping services, temporarily or on a regular basis.

She has also had bookings from apartment dwellers who haven't time to clean up before moving out, homemakers and bachelors.

Patterson said houses can be deceiving. They may

appear to be spotless, prior to a closer inspection.

"Our specialty is doing 'non-daily' chores, like cleaning the venetian blinds and the vent above the stove," she said. "We get all the hidden stuff."

Customers usually supply cleansers although the company brings some of their own supplies as well.

The cleaning crew does everything on the inside of the house except for dishes, laundry and beds.

According to Patterson, necessity is not the sole reason to call Kathryn's.

"It's a great gift idea for the grandma who has everything, or just for someone needing a break."

H.W. Pickup

Local student wins speech arts finals

H.W. Pickup student Keely Booth, left, and Vi Helm, representing the County of Parkland.

By Rick Cowen
The real-life characters encountered in a library are often more interesting than the characters inhabiting

Broadbent described, in perhaps the most expressive performance in the competition, her visit to Hawaii — "a shopper's dream."

That at least is the opinion of Keely Booth, a Grade 8 student from H.W. Pickup school in Drayton Valley who won the county-wide speech arts finals at Horizon Stage in Spruce Grove recently.

The other nine finalists were Rob Nixon from Stony Plain junior high school, Linda David from Muir Lake Community school, Mark Mooney and Conrad Walker from Graminia and Shannon Bredin from H.W. Pickup.

Second place in the competition, judged by actress, director, playwright and Grant MacEwan Community College instructor Ti Hallie, went to Denese Russ from Woodhaven school.

The finalists were chosen during preliminary rounds of competition in Drayton Valley, Stony Plain and Spruce Grove. Preliminary round finalists were chosen by the participating schools.

Her placement marked the second straight year Woodhaven has taken a trophy in the event.

Mary Sullivan, head of the committee which organized the second annual speech arts event, said schools were allowed to send one representative per Grade 8 class to the preliminary round.

Boyd Ibsen from Stony Plain junior high school and Stacey Broadbent from H.W. Pickup received honorable mentions.

The schools used various methods to choose their representatives. Stony Plain junior high, for instance, invited local trustees to adjudicate its "week-off."

Russ focused on the life of suffragette Nellie McClung, a woman who brought about a "revolutionary change" in the status of women through hard work, perseverance and a sense of purpose.

Denese Walsh, County of Parkland curriculum supervisor and system coordinator, pointed out that 150 students made speeches at one school.

Ibsen portrayed the pain, as well as the glory, in the life of an author. A writer can make his readers laugh or cry but the endless hours he or she must devote to completing a book can lead to bankruptcy and the loss of loved ones, he said.

The finals included both a prepared speech and an impromptu speech by each competitor.

Incentives program

Forest-related jobs over 10,100

"Jobs created by stimulated activity in Alberta's forest industry have risen from approximately 9,000 to a figure in excess of 10,100 during 1986," said Don Sparrow, minister of forestry, lands and wildlife recently.

The job increases comes eight months after the inception of the Forest Industry Development Incentives Program was introduced by the government of Alberta in the throne speech of last April.

"Since then, many Alberta forest product producers have taken advantage of the program and there have been several major project announcements," Sparrow said. The creation of approximately 1,100 many years of employment, directly related to forest industry, is a result of this new thrust in private sector activity.

Sparrow also pointed out that for every one directly-related forest industry job

created, about two more spin-off jobs result in indirectly-related fields.

New ventures undertaken by Pelican Spruce Mills of Drayton Valley have created 350 new jobs. Wood harvesting and hauling operations have expanded to supply a \$55 million oriented strandboard plant that is expected to officially open in the spring of this year. A new sawmill is scheduled to open later this year, as well.

Students followed Hansen

Students from County of Parkland schools donned sneakers on Sunday, March 15 to run alongside Rick Hansen through the county. Thain Olsen, principal of the Tomahawk school, said the students followed the Man in Motion from the Devon intersection weigh scale to the Seba Beach turn-off.

The county-wide run was divided into four legs, with students from Gramina, Klaskinaw, Queen Street, Woodhaven and Muir Lake schools running the first stretch. The second leg was run by students from Stony Plain junior high and the Blueberry Community school, and the third by the Seba Beach and

Duffield schools.

Runners from the Tomahawk and Edwistie schools completed the final stretch.

"He (Hansen) had to stop earlier than planned, so some of the Tomahawk students missed out altogether," said Olsen.

He added some students from Edwistie were able to

run on Monday with the Drayton Valley students. Olsen said a special thanks goes to the bus drivers and parents who volunteered their time to provide rides and make the event possible.

First buyer

John Henkel, left, was presented with a special buckle by Travis Sekura at the recent grand opening of Sekura Auctions' new livestock facilities. It was 21 years ago that Henkel bought the first animal from Wendy Sekura.

20 Years Ago
Maurice MacCullagh, a Drayton Valley district farmer was nominated as the NDP candidate in the next provincial election. He beat out Gaston Jouna of Tomahawk and George Mann of Fallis.

The Drayton Valley Huskies won the junior high

basketball tournament with a 34-13 win over St. Anthony's in the final. Jack Palmer led the Huskies' scoring in the tourney with 28 points, which also earned him the most valuable player award.

The Drayton Valley Ooks won the girls' tourney with a 22-12 win over the St. Anthony Angels.

Varylne Tower of Tomahawk was the MVP.

The Drayton Valley Rebels won the Northwest Hockey League pennant with a 19-3-2 win/loss/tie record. Hinton had an identical record, but the Rebels were awarded first place on the basis of a better goals for and against record.

Drayton Valley Curling Club Building Fund Raising Committee

Due to poor ticket sales the draw for the Van has been extended to April 25, 1987. The draw will now be held at the Curling Club Windup. Sorry for any inconvenience this may have caused.

Nutrition myths are dispelled

Are you physically active? If so, you're on the right track.

And if you think that because you are physically active there's no need to watch your diet, you're dead wrong.

Strangely enough, active people in particular need to watch their diet, and most active people know this.

The only problem is that too often they're swayed by certain prejudices concerning their special food requirements.

Today, on the occasion of Nutrition Month and the recommendations of dietitians, PARTICIPAction would like to dispel a few of these.

Protein supplements, for instance. Can they help build your muscular system?

No. It's true that muscles are made up of 70 per cent water, 25 per cent proteins and seven per cent fat, but you will never build up your

muscles simply by consuming 70 per water, 25 per cent proteins and seven per cent fat.

The only way to build your muscles is through training.

A varied and balanced diet provides all the proteins you need. Furthermore, proteins found in everyday foods cost at least 10 times less than those found in commercial protein supplements.

Second question: Are sodium tablets a good way to replace salt lost through perspiration?

Never. By eating three moderately salted average meals a day, you will absorb enough salt to replace what you may have lost in five kilograms of perspiration.

It is only after particularly strenuous or prolonged periods of exercise, in very warm weather, that you may need to replace lost sodium — by means of a clear soup, a tomato juice or a solution of two millilitres of salt in a litre of water. Even then, it is wrong to replace all lost perspiration with these liquids because you could risk a sodium overdose.

As for sodium tablets,

they are never necessary. Their concentration is far too high and they may cause dehydration.

Third question: What should we eat to gain increased energy quickly before exercising?

Nothing. It is better to avoid eating immediately before exercising or competing because your system will be left free to concentrate on physical activity rather than on digestion. But, to avoid that empty stomach feeling during exercise, eat a light snack two or three hours before you start. For instance, try pasta, a bowl of cereal, a sandwich or a muffin.

EAT WELL, LIVE WELL

My name is Deb

I felt tired & sluggish until I started losing weight. I've lost 21 lbs. and 2 in. and have so Much More Energy!

Hansen fund raiser

Grade 1 and 2 students at St. Anthony school sell popcorn at 25-cents a bag to raise money for Rick Hansen prior to his transatlantic voyage last week. In the background stands teacher Trudy Heider.

Around the province...

Utility rates up
Stony Plain - Residential water and sewer customers will notice an increase of 3.7 per cent in their 1987 utility rates over last year.

World scale plant
Joffre - Construction of a \$400-million petrochemical plant could begin by the summer of 1988 if Alberta Gas Ethylene can conclude long-term contracts with buyers.

Fewer teachers
Red Deer - Public schools will have fewer teachers and programs but higher taxes when schools re-open in September. The school board's \$31.8 million budget will see 19 teachers and 29 support staff laid off.

Park improvements
Sylvan Lake - The wheels have been set in motion for up to \$1-million in improvements to Sylvan Lake and Jarvis Bay provincial parks. But the future of the project hinges on how deeply the province's austerity program will cut into funding.

Town needs water
Eckville - The town may be forced to drill a new well if they can't repair an existing one to guarantee enough water for summer fire protection.

New development
Wetaskiwin - A \$3 million downtown development has been approved by city council. The development will include 30 residential units and 24 one- and two-bedroom apartments, 11 commercial outlets, a dental clinic and a restaurant.

New golf manager
Barrhead - The golf and recreation club have hired Hugh Lockhart as their new manager. He was the assistant superintendent at the

Kananaskis course for the past two years.

You can buy slattery, but envy must be earned

New wall

Crews have been busy at Buck Lake installing a new barrier wall that will hopefully prevent the beach from washing away. The beach area suffered considerable damage during last summer's floods.

Permits

Firecracker law may be changed

Firecrackers are not allowed in Drayton Valley without a permit.

However that may change.

Fire Chief Sheldon Fuson plans to take a proposal to the protection committee in a couple of weeks.

Whitcourt, like Drayton Valley, also has a firecracker bylaw. They are being asked to review the bylaw by Bill Burrell of the Alberta Firecracker Company.

Burrell made his appeal

to the Whitcourt town council because the provincial fire code has been changed to allow Albertans to buy firecrackers without a permit.

Fuson says the bylaw in Drayton Valley has been on the books for years. It says no firecrackers or fireworks are allowed, period. The fire chief added that firecrackers were outlawed in the province in 1960-61 because of a serious accident at St. Albert that claimed the lives of a couple of youngsters.

District Home Economist Bev Broks.

Better Buy Alberta is brunch club's theme

Better Buy Alberta was the theme of the Drayton Valley Christian Women's monthly brunch, held in the Elks Hall last Thursday.

District Home Economist Bev Broks was the featured speaker and told the 85 ladies present a promotional campaign, to make consumers more aware of Alberta food products, will be on soon. It will be jointly sponsored by home economists and Alberta food processors. "One of the goals is to enhance economic activity in Alberta, which in turn, will help the employment situation," she said. "The food and

beverage industry really has an impact on our economy."

Broks suggested checking food labels when grocery shopping and mentioned some local brand names such as Old Dutch, Gainers, Fletcher's, Company's Coming cookie and muffin mixes and Drayton Valley's own Caesar's Seasoning.

A Better Buy Alberta promotion will take place at IGA and Block's food stores in town starting April 20, two days per week for one week. Broks said she will have demonstrators in the stores to promote locally-produced foods.

The Drayton Valley Christian Women's Club, a branch of Stoneroff Ministries, is a non-denominational organization and welcomes ladies to attend its monthly brunches which are based on a different theme each time.

"It's supposed to be a fun morning out," said member Shirley Gunderson. "We always try to avoid having any controversial topics."

The club will meet again on April 9 for a brunch based on the theme, Rise to New Life, with a special session on making fancy Easter breads.

Mosquito abatement grant for Devon

Environment Minister Ken Kowalski and Drayton Valley MLA Shirley Cripps have announced a grant of \$6,271.98 has been awarded to the town of Devon for their 1986 mosquito abatement program.

The grant has been

awarded under Alberta Environment's Biting Fly Financial Assistance Program. This program aims to limit environmental impact of biting fly control measures by providing technical advice and training assistance to Alberta

municipalities.

Additional information

on the program can be obtained through Alberta Environ-

ment's pesticide chemicals branch.

The Notebook

By
Const. Brian Herrick

When you are travelling on a highway in the morning or early afternoon, you may have noticed school buses picking up or dropping off children.

While the bus is stopped, flashing lights will be noticed from the front and rear. This signal is a request that you stop your vehicle prior to passing the bus. For the safety of the children, remember that Section 105 of the Highway Traffic Act states that:

"105(1) If a vehicle bearing the sign "school bus" and displaying alternated flashing red lights is stopped on a highway, the operator of a vehicle approaching the school bus

(a) from the rear, if the highway is physically divided by a median into 2 separate roadways or

(b) from the front or the rear, if the highway is not divided as described in clause (a), shall stop before he reaches the school bus.

An operator who is required by subsection (a) to stop shall not pass the school bus until the driver of the school bus indicates by signal that he may proceed or the alternately flashing red lights stop flashing."

Remember, each bus carries our future. Let's protect what we have.

4-H "pheasants are pleasant"

By Leah Dick

Regional 4-H winter assistant
Are you a 4-H member wishing to participate in a truly unusual experience?

If you understand and appreciate wildlife on your own land, then you may want to consider the 4-H Pheasant Raise and Release Project.

The pheasant program is designed to give 4-H members and their families the opportunity to better understand and appreciate wildlife and the needs of wildlife. With a better understanding in this area, the retention and development of wildlife habitat particularly on private land, is encouraged. Ultimately, the pheasant project is meant to provide enjoyment for present and future 4-H members and their families.

The 4-H Pheasant Raise and Release Project runs from mid-May to mid-September and is a very

rewarding project in that it allows members to see these small chicks grow right before their eyes into mature, young birds. To understand the call of nature and release these healthy young pheasants is the 4-Her's greatest reward!

In order to apply for pheasant chicks, you must be a 4-H member who has the support and encouragement of his or her parents to take on this project. You and your parents will have to set up on your farm a brooder house and flight pen to comfortably hold a minimum of 25 pheasant chicks. Each member must have a class C game bird farm license. This free license is issued by your local fish and wildlife officer. He requires your name, address, legal land description and the number of chicks that you will be raising. You are required to give the license

number to the staff at the Brooks Wildlife Centre prior to picking up your birds.

You can obtain more information on the pheasant project and application for the project from your 4-H regional specialist in Bar-headed. Applications are sent to the Brooks Wildlife Centre in Brooks, Alberta.

So take on the "pheasants are pleasant" opportunity and with a little luck and assistance from Mother Nature, you will be able to enjoy the pheasants for a long time to come.

Residents question county's drainage proposals

Lower water levels in a Deer Park-Woodland Park subdivision slough has an environmental watchdog group questioning county drainage programs.

Parikland Rural Residents Association wants to know the logic and rationale behind a Parikland County and Alberta Environment ditch digging scheme that has seen the subdivision water body lowered by eight inches in the past year.

A meeting held Feb. 13, involving representatives from the county, Alberta Environment, Clifford E. Leo Nature Sanctuary, the Energy Resources Conserva-

tion Board, the health unit and Ducks Unlimited, allowed members of the Parikland Rural Residents Association to air their views concerning shrinking water bodies and decreasing well water quality.

With local water body levels dropping, residents are concerned about aesthetic effects of marshy areas while conservationists fear for the welfare of wildlife.

"There should be an overall plan as to who does the drainage benefit," PRRA land use committee chairman Steve Cherwonick said later.

"It (drainage) costs money — both the county and

the province. What's the purpose and how do you control it?"

"What's the grand plan?" The drainage problem arose from a deepening and cleaning of drainage ditches in 1974 and then again in 1983-1984.

"The drainage was carried out because of concerns by residents adjacent...that the channel was becoming constricted," because residents feared a major storm could cause flooding, county engineer John Twach explained.

The county has agreed to take elevation readings and council will consider install-

ing a dam on the lake to regulate water flow.

The only problem is deciding at what level the slough should be maintained, Reeve Ron Pollock said.

"When you start trying to figure out what is the natural level nobody knows for sure."

PRRA also had other concerns. They fear sloppy sewage disposal practices could contaminate local water wells.

Because the matter rests with local board of health and the Alberta Labor plumbing and inspection branch, the matter lies outside county jurisdiction. A petition

presented in 1976 resulted in no action, Cherwonick said.

The problem is, water well quality is an inexact science. Nobody seems to acknowledge there is a problem or what may cause it, he said. Some residents believe seismic testing can upset the shallow aquifer supply system beneath the acreage.

Cherwonick said his group will try to reach a consensus among residents in the area over how water quality and levels should be preserved.

"Then I suppose in another couple of months we'll have another meeting".

Toyota vandalized

On February 22, between 1 a.m. and 9 a.m., a brown 1985 4x4 Toyota was left abandoned in a ditch next to the intersection of Range Road 85 and TWP Road 492 (eight miles west of Drayton Valley).

The vehicle had just been involved in an accident and upon the owner's return, it was found vandalized. The engine's battery, tools and contents from a wallet were

stolen.

Crime Stoppers will pay a cash reward for information leading to the arrest of any of the person(s) responsible for this offence. If you have information on this or any other criminal offence, call CRIME STOPPERS, toll-free, at 1-800-922-TIPS (922-8477). You do not have to reveal your identity, and if your information leads to an arrest, you qualify for a reward.

Education taxes up 8.8 per cent

By Rich Geseen

Area residents can expect an increase of 8.8 per cent in the education portion of their 1987 municipal taxes.

The increase is necessary to offset a \$906,000 shortfall anticipated by the end of August. County of Parkland Board of Education trustees decided March 3.

Alberta Education is requiring all school boards in the province to develop budgets which parallel the school year. The local jurisdiction was therefore forced to adjust its budgeting process and come up with a "stub budget" for the period Jan. 1 to Aug. 31.

That budget calls for total expenditures of \$38.2 million.

Despite holding the line on salaries, "except for increased costs resulting from salary settlements which occurred in 1986 and previous years," the budget increased by \$1.5 million over the previous year.

Anticipated revenues are expected to increase by \$272,000 during the first eight months of the year.

The education system has attempted to cut expenditures by reducing school-based support staff services by three per cent below the costs projected to maintain them at the previous year's levels.

Budgets directly affecting student instruction will be maintained at their present levels because "these service levels had already been committed for the 1986-87 school year."

All other service budgets, including central administration, maintenance,

construction and custodial services, have been reduced by six per cent below the projected costs of maintaining them at 1986 levels.

One of the more controversial features of the overall budget, at least during the school board's final debate before adoption, is the \$300,000 to be set aside for a "pay as you go" capital reserves fund.

Superintendent of Schools Mary Tkachuk explained the fund is necessary in order to allow the school system to reduce its need for future borrowing.

If the reserve fund was abandoned by trustees, he pointed out, the school board would simply end up paying more money to maintain its facilities in the future, he forced to alter the condition of its school and other buildings to deteriorate or be placed in the position of having to reduce staff in order to deal with increased costs.

"This is a bare bones budget," he said. Trustee Henry Rondeau said he couldn't vote for an increase in taxes given the present economic recession.

A capital reserve fund should have been established when money was flowing through the system, he argued.

Trustee Ron Pollock said he wasn't happy about having to increase taxes but the people he's spoken to have stated they want the county to maintain the quality of education. George Sewell said he couldn't see anywhere the budget could be cut without affecting the quality of services provided.

The relatively small

amount of money the system is setting aside in its capital reserve fund represents substantial future savings, he said.

Trustee Rianne Kulak indicated the budget will be difficult for Stony Plain residents to accept but "we really have no choice."

Margaret McNary said she didn't think taxpayers expected the education system to drop programs established for the mentally handicapped.

In order to cope with increased costs.

Cecil Dawkins said setting a lower mill rate would only jeopardize the system's opportunity to deal with the debt situation.

Trustee John Willson said he's comfortable the 1987 budget has been reduced as much as possible but warned he'll have a lot of trouble supporting next year's budget if he has to ask the taxpayers of Spruce Grove for another increase of \$80.

Awaiting word on CRC grants

The County of Parkland is anxiously waiting for word on the Community Recreation Cultural (CRC) grants.

Ed Haykowski, west and coordinator for the county, expects to hear this week.

Haykowski reports that 61 groups have applied for funding. The Town of Drayton Valley submitted a request for \$75,000 while the municipal library is after funding to upgrade their stock and purchase a library.

The Easyford Community Association has made application for funds to assist with the building of a new hall, the

Tomahawk school is working on a library. Whitty wants to add on to their hall; Moon Lake wants to upgrade their facilities and the Pampa Nordic ski club is after funding to build a shelter.

If word comes this week Haykowski expects the county recreation board will meet within the next two weeks to make some grant decisions.
